

Maryo

Maryo is the wonderful team leader here at Bourne House. He was born in Romania and grew up in a small city in Greece called Arta (which translates to Art).

Maryo loves to spend time hanging out and going out with his friends and is always helping people out. From gardening to participating in charity events – he's always happy to lend a helping hand. He likes dancing and singing with friends and with the residents and is always up for a good time.

Maryo loves to travel and enjoys the well-earned Holiday's that he goes on annually.

As a team leader he has a very broad job of looking after the team, residents and helps with the general running of day-to-day life in-house. He very much gets involved in the social activities program too and loves to sing with the team (of very talented healthcare assistants).

We are very grateful for Maryo with his hard work and constant commitment. If somehow you haven't had a chance to have a chat with him you must say hi – he's got a pretty good sense of humor too!

Here are just a few moments of family and friends spending time together that we have managed to capture during this last month.

BOURNE HOUSE – THE INTERACTIVE SCREEN

Technology is something that has grown so fast over the years and can often be a little bit confusing and intimidating.

Our interactive screen is amazing and the Residents absolutely love the games, art, videos and all sorts of stimulating things the screen provides.
